

Developmental Academy – 05's and 04's

This program is for ages 7-8 and focuses on developing individual soccer skills such as ball handling and control, moves and fakes, as well as juggling and ball balancing tricks that add to the fun and satisfaction they get.

The emphasis in the Academy is **FUN!** Players will be learning fundamental techniques (dribbling, ball control, shooting, etc.) in a fun yet challenging environment. The purpose of this training is to give players “confidence on the ball” and provide the tools needed to thoroughly enjoy the game. Most players see significant improvement and enjoyment in their other soccer endeavors such as Parks & Rec because of the increased confidence they have in handling the ball.

It's low-key but high-quality.

Again, JSC provides this program with professional coaches who have specific experience working with young children.

Membership Fee for this program is **\$100 per year.**
